

The Wiser Workforces project is funded by *InterTradelreland* and supported by Women in Technology and Science

## Project Manager

**(Two year fixed contract position – 20 hours per week)**

Women in Technology and Science (WITS) through funding from *InterTradelreland* is pleased to announce the launch of an all-island pilot project helping Women in Science and Engineering to re-enter the industrial workforce.

This is a unique cross-border initiative which will deliver an all-island educational and mentoring project to support the re-entry of Women in Science and Engineering into the workforce following a career break.

WITS wish to appoint an experienced individual to the position of Project Manager. The position offered is on a two year contract basis of 20 hours per week. The successful appointee will lead this exciting and innovative programme over the next two years.

### **Applicants must have or demonstrate:**

- Experience of all aspects of project management including project development, delivery, monitoring, evaluation and budgetary control;
- Excellent event management skills;
- A good understanding of budgets and financial reporting;
- Strong interpersonal skills;
- Excellent presentation skills .

Reporting to the board, this post is based at the WITS office in Dublin and will involve all-island travel.

Fees will be commensurate with experience.

**To apply for this position: Please send a detailed C.V. in confidence to Ena Prosser, WITS, PO Box 3783, Dublin 4, Ireland.**

**Closing date for applications:  
Friday 5th October 2007.**

**E-mail:** [wits@iol.ie](mailto:wits@iol.ie) **Web:** [www.witsireland.com](http://www.witsireland.com)

WITS is committed to equality of opportunity. All applications will be considered strictly on the basis of merit.
